Senior Product Designer with 6+ years of end-to-end product experience. Skilled in UX research, strategy, and UI design, delivering measurable impact across large-scale digital products. Based in Germany and open to full-time roles.

Experience

Senior Product Designer // Vakıfbank
Oct 2022 - Present

VakıfBank is one of Turkey's largest banks, providing digital banking services to nearly 14 million customers nationwide.

- Worked in Agile sprints and served as Scrum Master for the UX team.
- Improved UX/UI across the VakıfBank app, website, and internal platforms by redesigning key banking journeys including loans, accounts/cards, trading, profiles, approvals, and audit workflows.
- Designed an end-to-end internal web platform supporting AI use within the organization.
- Conducted information architecture work for the VakıfBank app payments section, including card sorting and tree testing.

UX Lead // Vodafone
May 2021 - Oct 2022

Vodafone Turkey is a leading telecommunications and digital services company serving over 25 million users nationwide.

- Worked in Agile sprints, leading end-to-end UX/UI design for all Upgrade and Mobile Acquisition journeys.
- Improved critical telco journeys—including add-on purchases, tariff changes, new line applications, and My Rewards—delivering a **+104% MoM** uplift in My Rewards KPIs and a **24% increase** in new line application success.
- Analyzed qualitative and quantitative data—including traffic, clickstreams, funnels, user feedback, KPIs, TNPS, and Adobe Analytics (Omniture)—together with the Product Lead to guide decisions.
- Facilitated team workshops, coordinated usability testing with the research team, partnered with UX agencies on external research projects, and conducted A/B tests to validate design improvements.

UX Designer & Researcher // Userspots
June 2019 - May 2021

Userspots is a UX/UI company serving 200+ clients with human-centered solutions built through multi-method user research, strategy, and design.

- Led end-to-end UX/UI design across diverse client projects and co-defined design strategy with the Product Manager.
- Conducted multi-method research (interviews, surveys, usability tests, card/tree tests, heuristic reviews) and synthesized insights into personas, journey maps, and mental models.
- Improved cross-platform experiences across telecom, e-commerce, healthcare, insurance, and finance by delivering end-to-end UX/UI solutions and aligning with stakeholders and C-level teams.
